

Lycée International, St Germain-en-Laye

Key Contact for CdM: Keith Sykes ksykes@britishsection.fr

Outline

We have four classes, each with eight hours of timetabled section lessons (4x HG, 4x ACL). A CDM drop-in clinic (hybrid) is run for one hour each week and is available to all students on a basis of need.

The themes of CdM have been integrated into the existing curriculum, with an associated supervisory model adopted. Two subject-based 'Touch and Reach' documents are available to students and are updated regularly, where we constantly review where we teach the thematic content of CdM ('Touch') within our existing curriculum, and also where we provide opportunities for students to extend and will be on that if they are interested ('Reach').

Eight staff are assigned to the year group; each has an overview of nine students as an immediate point of reference. Lesson time is assigned for one-to-one review meetings, small group, seminar-style, thematic meetings and whole cohort information meetings.

Skills

In addition to study skills being integrated into our curriculum program, students get discrete study skills sessions delivered by our librarian. CdM-style projects are being written into 3ème and Seconde programmes to begin preparation.

Basic Timeline

Term	Première	Terminale
1	Basic study skills and formulating a research question	Exhibition and training on using sources in structured oral presentations.
2	Detailed study skills and developing an active bibliography	Thematic groups, peer presentations and review. Finalisation of online log.
3	Professional partnerships and thematic collaboration (Video Assessment)	Final Presentations

Resources for Students

- JSTOR, Gale, Google Scholar with Librarian Support
- Moodle Page with online support documents (guides) and videos
- Online document submission
- ASIBA Masterclasses
